DEMOCRATS PLAN TO EJECT RUFF

Three Factions in District May Be Consolidated According to Rumor.

OPPOSITION FROM COSTELLO

FACTION NOW EXPECTED
New Committee Would Have Membership of Sixty-six and Advisory Board.

With the view of establishing harmony in local Democracy and putting an end to the three-sided strife which is now reigning, the so-called Newman Democratic Central Committee has under consideration the subcommittee of plans for the amalgamation of the three contending central committees into one powerful Democratic body.

A special meeting of the Newman Central Committee for the purpose of formulating the plan in detail and submitting it to the other two contending committees for approval will be held within a short time. A meeting of the committee was called for last night, but the inclemency of the weather caused a postponement.

The members of the Costello Central Committee will unquestionably oppose the plan and reject the offer, contending that their organization is the regular and legalized one, and the only body entitled to represent the District Democracy. If such is the case, the Newman committee will declare the Costello body opposed to harmony and antagonistic to the best interests of Gov. Wilson and Marshall. If the proposition is rejected, it will at once appeal to the Democratic National Committee to declare the other organization an enemy to Democracy.

Montgomery Proposes Plan.

The amalgamation plan has been proposed by George C. Montgomery, one of the members of the Newman committee. It has received the approval of practically the entire membership of the organization. The idea is to combine the central committees representing the Costello, Newman, and Carr-Darr-Benton factions into one single organization. The project is a large one, for such a body would constitute the strongest and most effective Democratic organization ever attempted in the District. It would have a membership of sixty-six representative Democrats, with an advisory committee of 250.

The rules and regulations governing the central committee for the District as laid down by the Democratic National Committee in 1904 and 1906 provide that the body shall consist of twenty-two members—one from each of the election districts. In order to meet this difficulty it is proposed to give each of the sixty-six members one-third of a vote apiece. Similar tactics were pursued by delegations in connection with the Democratic Convention. The District was entitled to only six votes there, but some of the delegations sent twelve men, investing each with one-half a vote.

John Keady, one of the old war horses of Georgetown Democracy, and a member of the Newman committee, is opposed to the plan on its face. He apparently stands alone in his opposition. Other members of the committee think that after the proposition is explained to him he will be converted.

AGREE TO ABOLISH COMMERCE COURT

Conferees on Legislative Appropriation Bill Are Nearly Ready to Report.

It became known yesterday that the conferees on the legislative, executive, and judicial appropriation bills, which carry with it a provision for the abolishment of the United States Commerce Court, virtually have reached an agreement, and that a report may be expected at any time. The Commerce Court goes. The principal point at issue between the conferees of the two houses is the clause involving the Commerce Court. As it passed the House, the bill provided that following the abolishment of the court, the five judges thereof should return to the Circuit Courts, and that no further additions should be made to the list of circuit judges until the thirty-fourth year of the century.

The Senate agreed to the abolishment of the court, but accepted an amendment offered by Senator Smith of Georgia, which legislated the judges back to private life. The House conferees feel that the grave question as to the compensation of the judges is the one which the Senate has laid open to a Presidential veto which it may escape without that provision. It is understood that the conferees of the two houses have virtually agreed to report in favor of the provision contained in the House bill.

One of the conferees said yesterday that while he had hopes of reporting the measure by Thursday, there was a possibility that the report would be delayed beyond that point. In this event Congress will pass another resolution continuing last year's appropriations for thirty days more.

Merchants Favor Secession.

Secession of the Retail Merchants' Association from the Chamber of Commerce is inevitable within a few weeks, according to the present outlook. A meeting will soon be held to take final action upon the matter. The sentiment of the association as indicated by replies to letters sent out by M. A. Leese, chairman of the special committee on the secession proposition, is about ninety-five per cent favorable to the formation of a separate organization.

George P. Spearling Released.

George P. Spearling, held under a requisition from the Governor of West Virginia, on the charge that he was implicated in a grand larceny in that State, was yesterday ordered released by Justice Wright. Spearling sued out a habeas corpus writ and was released with the consent of the District Attorney, who had been advised that the demand for extradition would be withdrawn. Spearling has been on bail awaiting action on the habeas corpus writ.

TO INSTALL FILTERS.

Government to Try and Economize in Use of Water.

Estimates for the expenses of Washington aqueduct and accessories, which include the filtration plant for the year 1914, amounting to \$22,150, have been submitted by Col. Langhitt, the engineer in charge of the District water supply, and approved by Gen. Blaker, chief of engineers of the army. Among the items is one of \$2,150 for the purchase and installation of meters in the United States buildings and reservations in the District, which Col. Langhitt thinks will result in greater economical consumption of water.

OHIO SITUATION CAUSES CONCERN

Taft and Senator Burton Confer as to Successor to Dillon Who Has Dropped Out.

President Taft and Senator Burton of Ohio held a conference last night in regard to the situation that has arisen in that State by the declaration of Judge T. B. Dillon, nominee for Governor, Harry M. Daugherty, Carmi Thompson, secretary to the President, and Brig. Gen. Clarence H. Edwards were present at a dinner, and the conference followed. No conclusion was reached as to any action to be taken. It was said that President Taft would decline to make any suggestions of the name of a successor to Judge Dillon.

It developed at the conference that the President, Senator Burton, and all the Ohio leaders would be glad to have Judge Dillon reconsider in regard to the ticket, but none of them expects that he will do so. It was agreed that the vacancy would have to be filled by the State Committee. President Taft has expressed the hope that some way might be found to reconvene the State convention, believing that this would be a more satisfactory way. But the plan, after being investigated, was found to be impracticable.

A number of names have been mentioned for the succession, which will probably be filled by the Republican State committee when it meets tomorrow. Warren G. Harding, who was the candidate two years ago and who placed President Taft in nomination at Chicago, is most prominently mentioned. Harry M. Daugherty, whose name is suggested in press dispatches from Ohio, declared that he would not accept the nomination.

A suggestion has been made that Gen. Brown, former Lieutenant Governor, who was a candidate for Governor in the State convention, and who is a former commander-in-chief of the Grand Army of the Republic, be promoted to the governorship, and that another name be substituted for Lieutenant Governor, Senator Burton favors the nomination of Representative Paul Howland, of Cleveland.

MEXICAN REBELS ATTACK MORMONS

Persecutions Alleged to Be Deliberately Planned to Secure Intervention.

Gen. Salazar and other rebel chiefs acting under Gen. Orozco are deliberately persecuting American Mormons in northern Mexico with the avowed purpose of bringing on intervention in Mexico by the United States.

It was learned here yesterday in dispatches to the War Department from Col. E. Z. Steever, commanding the American force on the Mexican border, that Gen. Steever's dispatches state that the Mormons in the districts of Casa Grande, Pinar, and Madera are being persecuted and persecuted in every way. Many of them are being maltreated in person, it is stated, and their property despoiled by the rebel bands. Gen. Salazar himself is responsible for the statement that this campaign of persecution of the Mormons is being carried on with the purpose of bringing on American intervention, which is stated to be the policy of the rebels. It is stated that hundreds of refugees are now fleeing from the Mormon settlement by train, and further details of the outrages they have suffered are expected when the refugees arrive.

Find Infected Rodent.

Renewed Efforts to Be Made to Keep Bubonic Plague Out.

Surgeon General Rupert Blue, in charge of the Marine Hospital Service, said last night that he had not yet received any report of the finding of a rat in Philadelphia, that had been infected with the bubonic plague. He added, however, that he was not surprised to hear that one of the rodents carrying the germs had been found in that city. He had been advised that the United States consuls to renewed efforts in their fight to prevent the plague from making an appearance in American cities.

A teaspoonful of salt to a gill of milk makes a mixture which will remove most ink stains from clothing.

EMBEZZLED FUNDS TO BE RETURNED

Friends of Bank Clerk to Try and Make Good Shortage of \$25,000.

Rumors were astir in financial circles late yesterday afternoon to the effect that the local broker, whose business house executed the orders on the New York Stock Exchange for the former employee of the old National City Bank and the Commercial National Bank, who confessed having embezzled nearly \$25,000, was a director of the former institution at the time of the speculation.

BROKER MAY BE INVOLVED

The broker could not be located last night at his residence, and it is said that he is in New York. Although the brokerage house is not a member of the New York Exchange, it transacts considerable business in Wall Street. One of the rules of the New York Exchange prohibits brokers from executing orders for employees of banks.

It is said that the three banking companies which went on the bond of the self-confessed embezzler expect the local broker to reimburse them for some portion of the \$25,000. This seems extremely likely, in view of the fact that the broker is said to be in New York, the headquarters of the National Surety Company, one of the three companies.

Negotiations are now on foot between the bonding companies and the father and friends of the young man. An offer has already been made by the father to the bonding companies, but the latter refuse to discuss the matter. The Fidelity and Deposit Company, of Maryland, is the second company involved in the matter. It is understood that all three companies have no desire to prosecute the young clerk as long as they are assured that the money will be returned in full.

Consider Incident Ended.

As far as the Commercial National Bank is concerned, the matter is over. A. G. Clapham, president of the institution, has expressed the opinion that the bank officials will take no steps toward the prosecution of the former employee. The bank loses nothing by the embezzlement, the bonding companies covering the loss.

It is not likely that immediate steps toward prosecution will be taken by the office of the United States Attorney. Scattered in the papers are reports that the United States attorney, said yesterday that no investigation will be inaugurated unless a special grand jury is impaneled this summer. The grand jury is expected to be organized in the fall. It is possible that an investigation will be made then. No formal presentation of the case has been made to the office to the knowledge of Mr. Hinkley.

The mother of the young clerk is still at the family cottage at Colonial Beach, Va. The young man and his father are said to be in the city. They live in the Northwest section.

WAITS FOR FUNDS FROM HOME.

Elmer Reynolds at House of Detention Pending Letter from Father.

Yearning to return to his home in Winnipeg, Manitoba, which he left to travel around the continent, he held up by his parents, who have not assisted him financially. Elmer Reynolds, fourteen years old, is still being cared for at the House of Detention.

Several weeks ago Elmer left his home in Canada and started off on his long journey that came to an abrupt end here when he was picked up by a policeman. Hungry and exhausted, his father was notified, and his son's detention here was ended. He would have returned home if his expenses had not arrived.
